

Declaration of Compliance - Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

Direct Assembly Solutions Limited (DASL) and Metalwork Solutions Limited (MSL) understand & state compliance with the European Union Article 33 Regulation (1907/2006).

REACH requires that all chemical substances produced or imported into the EU in volumes of one tonne or more be registered with the European Chemicals Agency (ECHA). Direct Assembly Solutions Limited (DASL) and Metalwork Solutions Limited (MSL) confirm we have no liability under this element of the article.

This statement confirms that DASL & MSL understand our responsibilities, we observe our legal obligations and are compliant with the regulation and that none of the articles that we sell intentionally contain any of the 197 Substances of Very High Concern (SVHC's) currently on the candidate list in concentrations of >0.1% by weight.

If the SVHC list is updated, we aim to ensure all our products are checked and information and policies relating to these products are updated accordingly and will inform customers of any changes to our REACH compliance.

In order to ensure our compliance, we ask our suppliers to confirm that no SVHC are used in concentrations greater than 0.1% by weight within our supply chain.

The current list of substances covered by 1907/2006 can be found at:
